BOARD PERSPECTIVE ON RISK

The Board considers risk to include anything that hinders the sustainable achievement of objectives and results.

In developing a risk management policy, it aims to identify Ironbark Capital Limited's material risks and analyses the risk management, internal compliance and control systems in place, and of the effectiveness of their implementation.

The Board's risk appetite is considered conservative on the basis that any risk exposure is at a reasonable level.

FUNCTIONS

The Board is responsible for ensuring the existence of an efficient and effective system of internal controls. In this regard, the Board has adopted a risk management framework to assess the effectiveness of the risk management process and controls.

The Board has delegated the role of reviewing the risk profile and reporting on the operation of the internal control system to the Audit Committee. The external auditor is required to report on control issues as part of their audit and attends the Annual General Meeting where they are available to respond to shareholder questions in relation to the audit.

The Audit Committee (a) requires outsourced service providers fulfilling the role of executive management to report half yearly on the operation of internal controls, (b) reviews the external audit of internal controls and liaises with the external auditor and (c) conducts any other investigations and obtains any other information it requires in order to report to the Board on the effectiveness of the internal control system.

Due to the structure and size of the Company, it does not have an internal audit function.

MATERIAL BUSINESS RISKS

The following risks have been identified by the Board as having the potential to significantly or materially impact the company's performance:

The Company has outsourced its administrative functions to service providers, National Nominees (custody), Kaplan Funds Management Pty Limited (accounting and Company Secretarial) and Kaplan Funds Management Pty Limited (investment management). Accordingly risk issues associated with these activities are handled in accordance with the service providers' policies and procedures. Certificates of insurance currency are obtained annually from all key service providers.

In accordance with section 295A of the Corporation Act 2001, the CFO (accounting and administration) will confirm half-yearly in writing to the Board that in all material respects:

- The financial records of the company have been properly maintained in accordance with section 286 of the Corporations Act 2001;
- The financial statements and notes comply with the Accounting Standards; and
- The financial statements and notes give a true and fair view.

In addition, they will confirm half-yearly in writing to the Board that the declaration provided above:

- is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks; and
- all material business risks have been effectively managed.

(b) Market related risks

The Board is also primarily responsible for recognising and managing market related risks. By its nature as a Listed Investment Company, the Company will always carry investment risk because it must invest its capital in securities which are not risk free. However, the Company seeks to reduce this investment risk by a policy of diversification of investments across industries and companies operating in various sectors of the market.

The investment manager, Kaplan Funds Management Pty Limited, is also required to act in accordance with the Board approved investment mandate and to report to the Board half-yearly that they have invested the Company's assets in accordance with the approved mandate. The investment mandate allows the use of derivatives provided they are not used to produce financial exposures that would result in short selling or the leveraging of the portfolio. The Investment Manager provides portfolio and performance results to the Board on a monthly basis. Kaplan Funds Management Pty Limited has its own compliance and risk management obligations as the holder of an AFS licence.

In assessing the Company's risk tolerance level the Board considers any instance which materially affects the Company's Net Tangible Asset backing, which is announced monthly in a release to the ASX.

The Company does not consider it has any material exposure to economic, environmental or social sustainability risks.
